 Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Ahmann briefly discussed how Applicant's invention distinguishes over the prior art because the prior art does not teach streaming software. Examiner stated that streaming application program files could be streaming media played on a media player. Examiner suggested amending the claims to specify streaming software instead of streaming application program files. Amendments to that effect would overcome previous prior art rejections, and require further search and consideration.
